Miami Custom Estate Residence

Designed by Perla Lichi Design, Pompano Beach

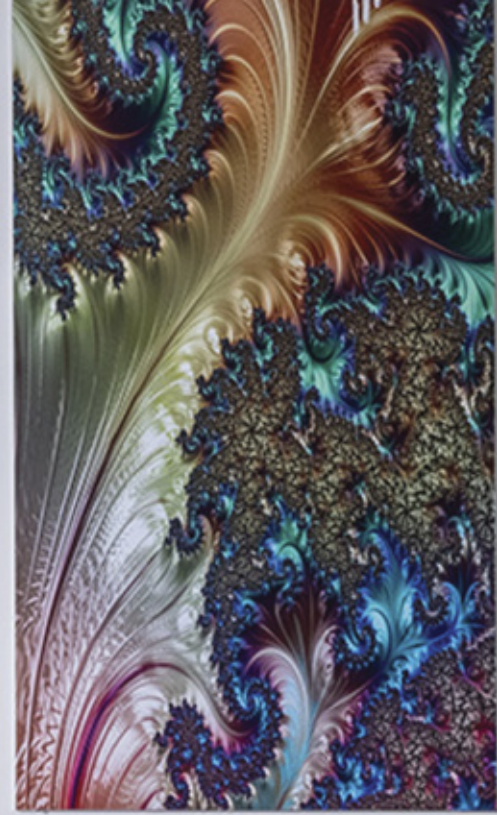

Designing a unique yet custom one-of-a-kind estate home for a Miami-based Hispanic family can be quite rewarding when Perla Lichi, a top South Florida designer delivers complete satisfaction to her client as she's known as the "multicultural" designer for many years

Design elements of substantial height and bold columns created challenges with limited symmetry of the rooms, Lichi created custom backlit artwork to serve as the core elements of color and style within the home. The artwork showcased the ceiling height and then worked her way into the living room with similar color schemes for rugs pillows, accessories.

The lady of the home has a whimsical personality, so the home needed to have a similar feel throughout. Starting from the living room, each piece of furniture was asymmetrical and spotlights custom swivel chairs with a unique design flare.

The home's window treatments followed the shape of the archways. "One of the best assets of the architecture is the ceiling heights so we used this throughout the house," says Lichi.

- CONTINUED ON NEXT PAGE -

The Dining Room centerpiece featured an oversized square-shaped table rather than the typical rectangle table with fanciful chairs full of featuring an eccentric design element. Enter the Master Bedroom which delved into the metallic spectrum and introduced “copper” textiles, wall colors and textures. Additionally, the glam continued with mirrored furniture and chic lighting giving a unique yet alluring warmth. All areas of the home including the children’s bathroom have unexpected memorable accents to create a uniqueness and one-of-a-kind experience like no other home.

Lichi also created several feature walls to bring in some of the earth tones – balancing earth and water with backlit lighting to feature the impressive onyx bar. Lichi wanted the house to have a lot of life and glow and backlit lighting completely enhanced the experience.

About Perla Lichi Design

Lichi focuses on designing each residence uniquely one-of-a-kind rather than sticking to a standard style. For over 40 years, Perla Lichi Design is a full-service Florida State-licensed professional interior designer, and a professional member of the American So-

ciety of Interior Designers (ASID). Perla Lichi Design is known to create spaces based on individual style. Perla Lichi works individually and personally with clients in order to design the ideal space. Their versatile portfolio includes a wide range of contemporary/modern, classic, traditional and transitional design. Perla Lichi has received more than 650 national and international awards for residential and commercial interior design projects. For more information www.PerlaLichi.com or on Instagram @PerlaLichi.

The kitchen is designed with a Modern Coastal theme mixing White Shaker cabinetry with an oversized island in a Driftwood Grey Bamboo with an ultra modern slab door style. The countertops and backsplash are the refreshing White Quartz with subtle Grey Veining and applied to the back splash as well with a sequence process so the veins match up across the wide area. Functional deep drawers, subtle materials, contemporary lighting, sleek stainless steel appliances and porcelain wood look tiles throughout the kitchen, bedrooms and hallways are some of the features in the home to embrace the clients' desires.

The Master Bath Oasis was fully renovated and is the Couples Sanctuary And Retreat. Designed with monochromatic white textures on every surface, while providing a visual elegance that soothes the soul and reinforces the calm quality of this oasis. The tub was removed and the shower was doubled in size with a comfortable bench for the sports enthusiasts to re-energize. State of the art Plumbing fixtures and LED under cabinet lighting set the mood for Luxe Living. - THE END -
